

SAISRINU GAMPA

Python Developer | AI & Backend Engineering

Hyderabad, India | +91 7981492200 | saisirinugampa135@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Python Backend Developer with 2 year of experience building AI-powered APIs, automation pipelines, and cloud-integrated systems for edtech and e-commerce platforms. Proficient in FastAPI, Django, PostgreSQL, OpenAI API, and LangChain. Delivered end-to-end backend features including AI-driven assessment engines, conversational support agents, analytics dashboards, and a multi-provider cloud file manager. Adept at translating AI capabilities into scalable, maintainable backend systems.

TECHNICAL SKILLS

Languages: Python, SQL

Frameworks: FastAPI, Django, REST API Design

Databases: PostgreSQL, Database Schema Design, Vector databases

AI / ML: LangChain, LangGraph, AI Agents, RAG

Auth & Security: OAuth 2.0, JWT, Secure API Design

Tools & Workflow: Git, GitHub, Postman, n8n, Docker

Concepts: Scalable API Architecture, Async Programming, CI/CD, System Design

PROFESSIONAL EXPERIENCE

Hex Technologies | *Backend Developer*

Aug 2024 – Present

- Engineered and deployed a production-grade REST APIs and PostgreSQL schemas for an AI-powered edtech platform (iBloom), supporting assessment delivery, performance analytics, and multi-role user management.
- Built AI-driven features using OpenAI API and LangChain — including an automated question and audio generation engine, and conversational support agents for e-commerce clients.
- Delivered analytics dashboards and marketplace modules enabling teachers, parents, and students to track progress and schedule sessions within the platform.
- Implemented OAuth 2.0 authentication, ensuring secure and seamless user onboarding.
- Conducted content audits on AI generated question content.

PROJECTS

iBloom – AI-Powered Learning Platform | www.ibloom.io

- Designed and built the complete backend infrastructure for an AI-powered edtech platform — covering API development, database modelling, authentication, AI content generation, and analytics.
- Improved API performance by 40%.
- Implemented an OpenAI-based question generation engine that automates assessment creation across multiple subjects, producing text questions and audio files for diverse learning formats.
- Delivered a multi-role system (students, teachers, parents) with role-based access control, performance tracking dashboards, and a marketplace module for scheduling tutoring sessions.
- Tech stack: FastAPI, PostgreSQL, OpenAI API, OAuth 2.0, Docker

ELG Diamonds – AI Customer Support Agent

- Built a customer-facing AI support agent for a diamond e-commerce platform using LangChain, enabling natural-language diamond search and real-time quote creation.
- Structured the agent's tool architecture and multi-step conversation flows to interpret customer requirements, filter inventory by cut, carat, clarity, and price, and return structured sales quotes.

- Integrated the agent with live product catalogue APIs, ensuring accurate, real-time inventory data was surfaced within every conversation.
- Tech stack: Python, LangChain, FastAPI, PostgreSQL.

CloudVault – S3-Compatible Cloud File Manager | <https://cloud.saisrinu.in/>

- Designed and built a full-stack cloud file management application that lets users configure and connect multiple S3-compatible storage providers — AWS S3, Cloudflare R2, Backblaze B2, and MinIO — from a unified interface.
- Enabled secure file operations: multi-service uploads, temporary shareable link generation with expiry, and on-demand downloads — with credentials isolated per storage provider.
- Engineered a provider-agnostic storage abstraction layer in Python, enabling seamless switching between cloud services without altering application logic.
- Tech stack: Python, FastAPI, S3-Compatible APIs, PostgreSQL, Docker.

AWARDS & RECOGNITION

- Bright Beginner Award – Ahex Technologies — recognised for rapid technical onboarding and early feature delivery
- Outstanding Performance Award – iBloom Project — acknowledged for delivering complex AI integrations to production

EDUCATION

Siddhartha Institute of Technology and Sciences, Hyderabad

Aug 2020 – Jul 2023

Bachelor of Technology — Electrical and Electronics Engineering | CGPA: 7.09

Government Polytechnic College, Cherial

Jul 2017 – Apr 2020

Diploma — Electrical and Electronics Engineering | 89.95%

LANGUAGES

Telugu (Native) | English (Professional)
